👨‍💻 PROFILE

Proactive full-stack developer with a strong foundation in UI/UX design and modern web technologies like React.js and Spring Boot. Passionate about building scalable, intuitive, and user-focused applications.

🎓 EDUCATION

B.Sc. (Hons) in Information Technology
Sri Lanka Institute of Information Technology (SLIIT) │ 2022–Present
(Currently in 3rd Year - 2nd Semester)

G.C.E. Advanced Level – 2021 Bandarawela Central College Subjects: Chemistry (B), Combined Mathematics (C), Physics (S) (Index no: 7732899)

G.C.E. Ordinary Level – 2017
English Medium – 6As, 3Bs

🛠️ TECHNICAL SKILLS

- **Frontend**: React.js, HTML5, CSS3, JavaScript, Bootstrap, Tailwind CSS
- **Backend**: Node.js, Express.js, Spring Boot, Java
- **Mobile App Development**: Kotlin, Flutter
- **Database**: MySQL, MongoDB, Firebase
- **Tools**: Git, GitHub, Postman, VS Code, Eclipse, Android Studio, Netlify
- **UI/UX Design**: Figma, Adobe XD

🧪 PROJECT EXPERIENCE

1. Smart Presentation Scheduling System – AutoShed
  Technologies: React.js, Node.js, MySQL, Express
  Roles: Admin, Lecturer in Charge (LIC), Lecturer, Examiner
- Designed and implemented Admin module with CRUD operations
- Integrated scheduling with real-time conflict validation
- Automated availability forms and email notifications

2. Interior Design Learning System – Growthive Project
Technologies: Spring Boot, Java, React.js, CSS, MySQL
- Developed CRUD for learning plans
- Created quiz creation and sharing modules
- Integrated frontend with Spring Boot APIs

3.Prison Management System – Maintenance Management Module
Technologies: MERN Stack (MongoDB, Express, React, Node)
- Developed dashboards for maintenance task tracking
- Created form submissions and MongoDB backend integration

4. Online Car Rental System (1st Year Group Project)
Technologies: HTML, CSS, PHP, XAMPP
- UI for vehicle listings and booking process
- Form validation and PHP backend
- Admin panel for managing rentals

5. Online Event Planning System (2nd Year Group Project)
Technologies: Java, HTML, CSS, Eclipse, MySQL
- Built event scheduling and calendar forms
- User login, registration, and dashboard

6. Travel Planner Mobile App – Ceylon Explorer (In Progress)
Technologies: Dart, Flutter
- Province-wise filtering and offline location management
- User trip planning and navigation flow

7. Mobile Car Game App (2nd Year Individual Project)
Technologies: Kotlin, Android Studio
- Created interactive 2D car racing game

8. E-Commerce Website for Sarees – www.liyasarees.com
Technologies: WordPress, CSS
- Built and deployed a saree selling website
- Integrated product pages and user-friendly navigation

📜 CERTIFICATIONS

- **AI/ML Engineer – Stage 1**, SLIIT

Issued Jun 2025 · Credential ID: m0briqm4zf
- **AI/ML Engineer – Stage 2**, SLIIT

Issued Jun 2025 · Credential ID: q0qlaxpppa
- **Microsoft Azure AI Essentials Professional Certificate**, Microsoft

Issued Jun 2025 · Skills: Azure AI Studio, Generative AI, Natural Language Processing (NLP)
- **Generative AI**, LinkedIn Learning

Issued Jun 2025 · Skills: Generative AI Tools, Artificial Intelligence (AI)
- **Python for Beginners**, University of Moratuwa

Issued Jun 2025 · Credential ID: 9jiCfNIWoH · Skill: Python Programming
- **Web Design for Beginners**, University of Moratuwa

Issued Jun 2025 · Skills: Web Design, UI Design, HTML, CSS

Credential ID: pcf0ZBFrJR
- **Career Essentials in Business Analysis**, LinkedIn Learning

Issued Jun 2025 · Skills: Requirements Gathering, Business Analytics, Business Analysis, Project Management
- **Career Essentials in Data Analysis**, Microsoft & LinkedIn

Issued Jun 2025 · Skills: Data Analysis, Data Visualization
- **Project Management Foundations Requirements**, Project Management Institute

Issued Jun 2025 · Skills: Project Management, Requirements Management
- **Microsoft Azure AI Essentials: Workloads and Machine Learning on Azure**, LinkedIn

Issued Jun 2025 · Skills: Microsoft Azure, Azure AI Foundry, Machine Learning
